

A dark silhouette of a person walking, facing right, against a textured grey background. The person is wearing a long-sleeved top and trousers. The text 'Allergens & additives' is positioned to the right of the person's head.

Allergens & additives

Dear Guest,

This allergen information card informs you about the allergens and additives contained in our dishes and drink.

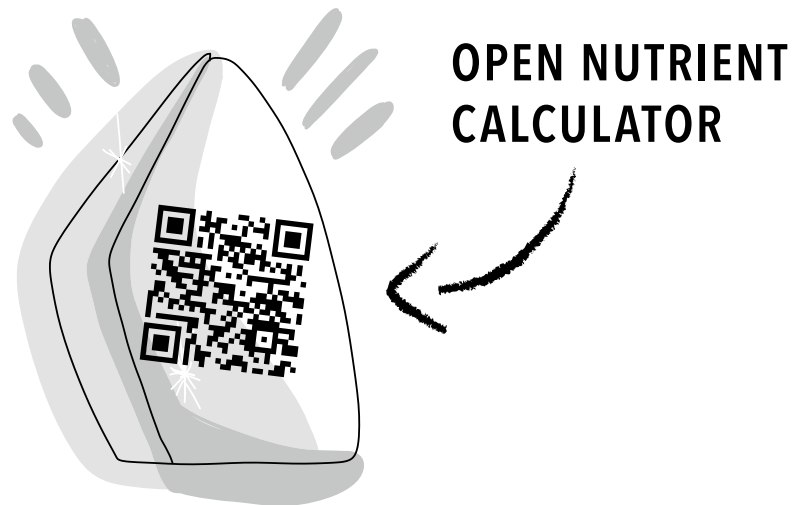

Unfortunately, we are unable to completely exclude the possibility of cross-contamination from various ingredients in our kitchen. As a result, there may be traces of gluten, egg, peanuts, soy, milk, nuts, celery, mustard, molluscs, fish, lupine, crustaceans, sesame and sulphites.

Unintentional traces of products (e.g. through frying fat) are not in contradiction to dishes being labelled as vegan or vegetarian. This type of cross-contamination is not taken into account in allergen labeling or in the labeling of vegan and vegetarian dishes.

If you have any further questions, if you cannot find a product or if your allergy is not listed, please consult a member of our service team. We hope we will make your visit a happy one!

Nutritional values

You can use our Nutrient Calculator to see the nutritional values of our products. This also enables you to filter our dishes and drinks quickly and conveniently based on your nutritional preferences or intolerances.
